PROFESSIONAL SUMMARY

Full Stack Engineer with 2+ years of experience specializing in automating business operations and building scalable product infrastructure. Proven track record of replacing manual workflows with custom software solutions (CRM, Automated Payments, UTM Tracking) that reduced operational overhead by 40%. Expert in MERN stack, React Native, and AWS cloud architecture.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5/CSS3

Frontend: React.js, Next.js, React Native (Expo), TailwindCSS, shadcn/ui, TanStack Query, Zustand, Jotai

Backend: Node.js, Express.js, Hono, REST APIs, GraphQL, Drizzle ORM, MongoDB, PostgreSQL

Cloud/DevOps: AWS (EC2, S3, Lambda, SES, EventBridge, CloudWatch, Secrets Manager, CloudTrail), GitHub Actions CI/CD

PROFESSIONAL EXPERIENCE

Lead Full Stack Developer

Jan 2024 – Present

Growthify Media (Performance Marketing Agency)

Remote

- Architected a centralized CRM and automation engine from scratch, transitioning the company from manual Google Sheets to a custom tool; reduced the operational team size from 7 to 4 while eliminating 99% of manual entry errors.
- Engineered a custom Node.js/Express middleware for payment gateway integration (Razorpay/Instamojo), solving a critical business pain point by ensuring 100% reliability in UTM tracking and lead attribution post-payment.
- Developed embeddable JavaScript/HTML components for no-code platforms (WordPress/Swipepages), allowing non-technical teams to deploy lead capture and dynamic workshop scheduling forms with real-time API sync.
- Built a comprehensive transactional email engine using AWS SES and EventBridge, replacing paid third-party tools (ConvertKit) for automated form-submit, cart abandonment, and nurturing sequences.
- Implemented RBAC (Role-Based Access Control) and secure API secret management, establishing a robust CI/CD pipeline via GitHub Actions to AWS EC2, S3, and CloudFront.

Frontend Engineer

Feb 2024 – May 2025

Haply Inc. (Community Platform)

Remote

- Owned the end-to-end frontend revamp of a React Native (Expo) community app, leading the transition from Beta to a successful Alpha launch in the US market.
- Engineered high-performance features including infinite-scroll feeds, real-time instant messaging, and a sharing-economy module for community rentals using GraphQL and Zustand state management.
- Optimized app performance by implementing complex GraphQL caching strategies and persistent authentication, significantly reducing latency and improving user retention.
- Developed the internal Key Account Management (KAM) dashboard using Next.js to monitor app analytics and manage community-specific configurations.

Frontend Developer Intern

Jan 2023 – Jul 2023

Rise11 Technologies

Patiala, India

- Translated Figma wireframes into responsive web (Next.js) and mobile (React Native) interfaces for the Akashvani astrology app, serving 300+ active users.
- Integrated complex REST APIs and optimized data pagination, resulting in a 30% improvement in initial load times.

EDUCATION

Thapar Institute of Engineering & Technology

2019 – 2023

B.E. Computer Science Engineering

Patiala, India

Greenwood Public School

2018 – 2019

CBSE (Class XII)

Gurgaon, India
